Lions Rest After Strenuous Drive For Lamp Sales

Albany Lions prepared for a weekend of rest today as they brought their most successful Lite-A-Thon to a close.

President Phil Martin and General Chairman John Maddox extended their sincere thanks of the entire club to the people of Albany for their wonderful support.

It is by this annual fund raising campaign the Lions Club is able to chart the various worthy programs in which it may participate. Assistance to the blind is one of the chief projects of each club in Lionism and locally the center is located on Opal Street in Oakland. The Center has recreation facilities, a Braille library and banquet room. These are at the disposal of the blind at all times.

The Albany Lions have also made available hospital beds to the residents of the city. The beds may be secured by contacting the Albany Fire Department. No charge is made for their use.

The Easter Egg Hunt and 4th of July programs are other projects which the Club has participated in for many years.

"With the support shown this year it will certainly encourage the Lions to serve their community in bigger and better ways." These were President Phil Martins parting remarks as the committe assembled for its final round of door bell ringing.

Albany Police Reserve To Fill New Vacancies

A class in Police Reserve Training will begin soon to train new officers in police subjects to fill some recent vacancies in the Albany Police Department's Reserve Unit.

The Reserve Unit is a branch of Civil Defense who's purpose is to maintain a ready-trained reserve force of citizens capable of supplementing the regular force in times of major disaster or great emergency. The Reserve Unit has long assisted in most civic activities such as parades and public dances.

Subjects that will be taught in the classroom include various phases of criminal and civil law, Civil Defense subjects, crowd control, traffic direction, beat patrol and observations as well as some of the more technical subjects like fingerprints and collection and preservation of evidence.

Reserve officers, after appointment, receive continuous training in subjects ranging from firearms and police weapons to handling of domestic cases and are afforded the opportunity to work shifts on patrol with regular officers.

Appointments will be made from those applicants who complete at least 20 hours of the 40-hour course. Appointees must be male United States citizens between 21 and 50 years of age and of such physical condition that would allow the often strenuous activity required in various emergency situations.

The classes will be open to anyone over 18 years of age and will be conducted at the Albany High School one night a week for 2 hours. Appointments will be made from those eligible as described.

Interested persons may apply at the Albany Police Station to Gil Mardilla, Reserve Director, after 6:00 p.m.

A proposed Basketball League, similar to the Basketeers, is being planned for the Juniors and Sub-Juniors. Age limits will be restricted to nine years old to twelve in the Juniors and seven to eight in the Sub-Juniors. League play will be held in the Community Center Gym.

One of the oldest and best known of the Swedish Folk Dancing groups, the Vasa Dance group, will once again hold classes at the Community Center on the third and fourth Mondays of the month at 8:00 p.m. For more information call Bud Rooney at the Community Center, LA 6-9555, or Mrs. James Brodie, LA 5-9504, folk singer, who will be the instructor.

COUNCIL PROPOSES CHANGE IN CHARTER

The Albany City Council, meeting on Tuesday evening instead of Monday because of the holiday, adopted a motion requesting the city attorney to prepare the necessary resolution for submission to the voters at the next election revising certain portions of the City Charter.

The proposal offered in a motion by Councilman Leonard Keek calls for the offices of City Clerk, City Attorney, City Treasurer and Chief of Police to become appointive instead of elective as at present. The motion passed 3 to 1, Mrs. Zahn dissenting. Councilman Donahue was absent.

The great majority of California cities follow this procedure. Only three, including Albany, elect their chief of police.

There will be no meeting of the council next Monday, October 19, due to the fact that the mayor, members of the council, heads of departments, and others will be in attendance at the annual meeting of the League of California Cities being held in San Francisco, Oct. 18-21, with some 3500 delegates from approximately 275 cities in attendance. The meetings alternate between Los Angeles and San Francisco from year to year.

At the regular council meeting of Oct 26 there will be a demonstration before the council of a tape recorder proposed to be used in recording council proceedings, and also a public hearing to discuss the possibility of developing a "Tot Lot" on the extension of Garfield Avenue at Masonic.

WHAT'S DOING

This is a "switchboard on wheels"—a complete telephone central office built right into a big truck trailer. Its job is to help phone people keep vital calls going through during emergencies. You see, we can send these switchboards on wheels wherever they're needed and hook them up to hundreds of phone lines in a matter of hours. Then operators work right from these trailers, keeping important calls going—fire, police, hospital, civil defense, and such. It's one way we work to keep phone service ready when it's needed most.

UNITED CRUSADE TIME

Preparations for the annual United Crusade Drive in the Berkeley office of Pacific Telephone began recently as employees serving on the Crusade Committee visited some of the agencies which benefit from funds contributed. Members of the committee pictured above are Phyllis McGrath, Freeland Standart and Shirley Hamma visiting with children at the Berkeley Day Nursery. After seeing the wonderful work being done at the nursery and other agencies, all committee members are working even harder to reach their goal of 100% participation and have high hopes that the total money collected will surpass all previous campaigns. MAY AND HAROLD OLSON standing in the Champ de Mars, Paris, with the Eiffel Tower in the background. The tower was built by a noted French engineer by the name of Eiffel as a feature of the Paris Exposition of 1889. It is 984 feet in height, and the stairway to the "top floor" contains 1927 steps. Most people take the elevator! Base of the tower is a square 336 feet on each side.

Olson Party Flies to Copenhagen for Tour of Denmark, Sweden, Norway

(Editor's Note: In this the fourth and concluding instalment of Mrs. Olson's interesting and detailed account of their European tour she tells of leaving Paris and visiting many historic and beautiful places in Scandinavia).

By MAY ELLIS OLSON

Next morning, our destination was Copenhagen, Denmark. We left Paris by S.A.S. plane and arrived in Copenhagen a few hours later. Everything was so clean with well-kept homes and gardens. Our hotel was on Hans Christian Andersen Boulevard. Nearly everyone speaks some English, which is a required subject in the schools. We visited Fresenborg Castle, where King Christian was in residence with his family.

We lunched (what food!) at a beautiful inn on the straits between the North Sea and the Baltic Sea. From here, we could see the shore of Helsinborg, Sweden, in the distance.

We visited Kronborg Castle in Elsinore, made famous in Hamlet. It is surrounded by three moats. We viewed the statue of the Sleeping Dane who, according to legend, will awaken to battle if Sweden ever attacks Denmark.

On returning to the city, we visited Tivoli, the most fabulous park in the world. It covers several acres and contains seven different types of restaurants. These include the sumptuous and exclusive Nimbs and a chinese establishment situated in a Pagoda. The latter has hanging gardens, bubbling fountains, and an herbacious garden. There are two outdoor theatres where, several times a day, shows go on. There is Pantomime (we saw Columboine and Harlequin), an artists' lawn, a robats, tight-rope artists and gymnastic productions. Besides these, there are all manner of rides and games for children, a lake with motor boats, and a Round-About (Our Merry-Go-Round).

We left Denmark and flew to Gothenborg, Sweden, home of our new world heavy-weight champion. Gothenborg is an ancient, seaport city of cobbled streets, with a canal running through it. Everyone was most friendly in spite of very little English being spoken here. We dined in the Botanical Gardens. There is a beautiful restaurant in the center of a four or five square block garden. The area is filled with quantities of beautiful and unusual trees and plants. Big beds of all-colored tullips are everywhere and all colors of lilac, the blooms like feathered plumes, the air heavy with their fragrance. We had a typically Swedish meal: many courses, lots of fish — no weight-watchers there!

Another flight took us to Oslo, Norway, the city where my father was born. We visited a museum village showing the type of home in use over one hundred years ago, with sod roofs and built of logs. There was a unique stave church. We went on to the Viking house where several Viking ships are preserved. There were a number of household articles, sleds and wagons, all hand carved by early Vikings. We also saw the Kon-Tiki raft.

After a characteristic Norwegian breakfast of fruit, several varieties of fish, cheese, sausage, boiled eggs, bread and rolls, sweet butter, sliced tomatoes, roast beef, porridge and coffee, we flew to Bergen, Norway. From there, we rode a bus to Norhemsund, a beautiful resort, high in the mountains. We saw the most gorgeous scenery in the world. There was lots of snow, beautiful waterfalls, quaint homes and farms. Everything was so clean and neat; the air so fresh and pure. It was still daylight at midnight, when we returned.

The next day, we traveled to Voss, passing much beautiful scenery with breath-taking views across valleys and fjords. While lunching at Voss, we met Mr. Laramen from Josephine Street in Berkeley.

Afterwards, we boarded a boat and traveled on Hardinger Fjord to Balestrand resort. Our hotel was backed by snow-covered mountains. Our room, on the third floor, had a coiled rope in the corner which was our fire escape, we were told. Kivinkne Hotel! Balestrand, was a favorite summer resort of former Kaiser Wilhelm, of Germany.

Returning to Bergen, via Soigne Fjord, we saw much beautiful scenery and quaint villages along the shore. Among them were Hoyangertown and Linvick, with its tiny spired church. We paid a visit to the Bergen fish market. Here, live fish is sold, all kinds, right on the quay. After 4:00 p.m., the stands, fish and fishermen are gone; all is closed up, the quay of bricks has been washed down, and everything is amazingly clean and orderly. Bergen is a colorful and busy city, a big seaport and filled with activity. We got a tremendous view of this city and port after traveling up the cog railway to the top of Mount Floien.

Next day, we said goodbye to beautiful Norway and winged our way back to the U.S.A. hoping we may someday go again.

Active Program In Progress at School Grounds

School playgrounds are showing great interest in a varied and active program at the Albany School grounds according to Superintendent E. L. Nelson.

Vista School playground director Frances Granier has reported greatly increased attendance during the first two weeks of the program. Tetherball contests, kickball games, art and storytelling make up a part of the very active program going on at the playground on the hill.

Paul Gaddini at Cornell School has developed considerable interest in football. Boys are going through an exercise and practice program which will teach them some of the skills and fun of the sport. Girls will be making pom poms and learning yells in addition to taking part in playground games and crafts.

At Marin School in addition to the interest in football, considerable activity is taking place on the softball diamonds according to George Buckingham. Four square, handball, kickball, basketball and other playground games make the Marin playground a very active and interesting place to be after school.

STARTING OCTOBER 28, the Albany Times will be delivered on Wednesdays. All deadlines will be set up one day.

Local Chairmen To Back Transit Bonds Named

Albany community chairmen for the Citizens Committee for Better East Bay Transit were named today.

Appointment of Jerome Blank, May Ellis Oison and John Pleich was announced by A. H. Moffitt Jr., general chairman of the committee sponsoring the $16,500,000 civic measure which will appear on the October 20 ballot as Proposition A.

"Approval of this crucial development project is vital to the future economy of East Bay communities," the local chairmen said in a joint statement. "A vote of 'Yes' on Proposition A will assure us the public transportation we need to protect our business and residential property values against the damaging effects of traffic strangulation."

They agreed that the program developed by the citizens committee would provide long-awaited relief to the many Albany residents who depend upon public transportation, through an improved and expanded transit operation designed to meet the East Bay's growing needs.

"Competent, independent consulting engineers have found that the proposed transit system will not require an increase in property taxes, and that the system can be self-supported by existing fares," the Albany chairmen said.

Proposition A would revitalize East Bay transit with a fleet of new ultramodern motor coaches, a network of new rapid express lines and 170 miles of new or improved service in neighborhood areas throughout the transit district. A total of 700 route miles of transit service is planned.

CHRISTIAN SCIENCE

The healing and redemptive power of the Christ, Truth, will be explained in the Lesson-Sermon entitled "Doctrine of Atonement" at Christian Science services Sunday.

Matthew's account of the healing of the leper by Christ Jesus (8:2-4) is included in the passages to be read from the King James Version of the iBble.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this selection will be read (19:6): "Jesus aided in reconciling man to God by giving man a truer sense of Love, the divine Principle of Jesus' teachings, and this truer sense of Love redeems man from the law of matter, sin and death by the law of Spirit — the law of divine Love."
